Is there anything else you would like to share about your project? *

Yes. Considering: i) the "time slot" issue in catalyst ecosystem for promoting recurring workshops; ii) low attendance in workshops, but good numbers in views on youtube [the-catalyst-school youtube channel as example <https://www.youtube.com/channel/UCIPvRvMoxhmHLUuPPcsMmmg>]; the team decided to convert the workshop (as we know), in interviews to try a different approach on the onboarding front, as well as covering all the topics of that particular interview [example: if the topics is about "intro-to-catalyst", the interview should cover all topics like a)whats a CA?; b)whats a vCA; c) the Catalyst Process; et cetera]. In addition to the interviews, there are all the supporting materials (translated from the-catalyst-school, from IOG and swarm), in different formats as: videos, presentations, podcasts and documentation in both portuguese and Spanish languages. The team also noticed a low interaction of portuguese speaker in the LATAM community as whole (as seen in latam townhall videos, available at: <https://www.youtube.com/channel/UCRZKx4HJFifOy8HCeOB8pxw>) So, the team is working together with LATAM townhall team to find a solution for this.
